

FAUZAN HADI

Software Engineer | Informatics Diponegoro University

PROFILE

Highly motivated Informatics student with a strong foundation in Full-stack Web Development and a specialized focus on Frontend Engineering. I excel at building responsive, high-performance web applications by combining technical precision with intuitive UI/UX design. Proficient in modern frameworks like Next.js and React.js, I am committed to bridging the gap between complex backend logic and seamless user interfaces.

WORK AND INTERNSHIP EXPERIENCE

KJPP Anas Karim Rivai dan Rekan | *Software Engineer Internship* Jan 2026 – Feb 2026

- Collaborated with a peer to translate high-fidelity Figma designs into a professional corporate website and an interactive internal dashboard using Next.js and Tailwind CSS.
- Built SI-MAPAN from the ground up, a full-stack integrated tracking system featuring a robust backend and real-time frontend data visualization.
- Integrated Cloudinary for optimized cloud-based asset management and successfully deployed the application to a production environment.

ANSA Konveksi | *Frontend Developer Internship* Dec 2025 – Feb 2026

- Designed a modern digital identity and high-fidelity UI/UX using Figma to establish a professional visual presence.
- Developed a responsive and high-performance company profile website from scratch using Next.js and Tailwind CSS.
- Successfully deployed the application on Vercel with custom domain integration, leveraging CI/CD pipelines for automated updates.

Asah led by Dicoding (MSIB Independent Study) | *Full-stack Developer* Aug 2025 – Dec 2025

- Participated in an intensive MSIB program, mastering advanced React.js and web development while applying skills to a real-world platform.
- Collaborated to build a comprehensive Learning Management System (LMS) from the ground up using React.js and PostgreSQL.
- Integrated AI-driven analysis for personalized learning paths, bridging complex logic into a functional web ecosystem.

Mahkamah Agung RI | *Software Engineer Internship* Jul 2025 – Aug 2025

- Partnered with a developer to execute a complete UI/UX redesign of the official portal and internal dashboard using Figma.
- Built a robust web application using Laravel, transforming complex designs into functional, responsive, and secure interfaces.

CV Asri 1188 | *Frontend Developer Internship* Apr 2025 – May 2025

- Designed a professional visual identity and UI/UX layouts in Figma to modernize the company's digital branding.
- Developed a responsive company profile website using Next.js and Tailwind CSS, and successfully deployed it to a live production environment.

EDUCATION BACKGROUND

Diponegoro University 2023 – Present
Bachelor's Degree in Informatics | GPA: 3.52/4.0

TECHNICAL SKILLS

Hard Skill

- Frontend: React.js, Next.js, TypeScript, Tailwind CSS, HTML5, CSS3.
- Backend & Database: MySQL, PostgreSQL, Supabase, Prisma, RESTful API, Cloudinary.
- Design & Tools: Figma, Canva, Git, GitHub, Vercel (CI/CD), Testing & Debugging.
- Specialties: Full-stack Web Development, UI/UX Design & Prototyping, Web Performance Optimization.

Soft Skill

- Analytical Problem-Solving, Technical Communication, Collaboration & Teamwork, Adaptability.
